

**SOFA WITH SLEEP UNIT**

- Almost any sofa style with a **loose seat cushion** can be transformed into a sleep sofa.
- Be aware that sofa will be modified to accommodate sleep unit.
- Sleep unit sofas will be built with no outside back pitch.
- Style may require overall depth to be modified, seat depth may be shallower (maximum seat depth is 21" - 22"), arm height may be raised and it may be necessary to raise back height to accommodate sleep unit. Add the dimension of the arms of the sofa style selected to the size needed between the arms. If one or both ends of the sleeper are armless, add three inches to each armless side. Add the upcharge for the sleeper mechanism and mattress to the cost of the standard sofa at the finished size.
- Mattress features: 4 1/2" high polyurethane fill with coil innerspring, damask cover.
- Note: All bedding **MUST** be removed before closing sleep unit.

<b>MATTRESS SIZE</b>		<b>SIZE BETWEEN ARMS</b>	<b>ADD TO SOFA PRICE</b>
Twin Mattress	39" x 75" x 4½"	45"	720
Full Mattress	54" x 75" x 4½"	60"	875
Queen Mattress	60" x 75" x 4½"	68"	950
