

Inspired by a desire to create a fixture that reaches and spreads through space, the Equi chandelier relies on finding its balance points to create a composition of subdued elegance. Both a mobile and chandelier, the Equi uses custom metal components to hinge and pivot hand blown glass shades at various distances. The final effect is one of deceptive simplicity. The Equi is available in three distinct variations that can stand alone or work in concert to create a fixture that can fill any size environment.

The Equi 6 is part of the Equi Collection, which includes fixtures in various configurations. See the full collection at siemonandsalazar.com.

Equi 6
chandelier

Plan view bounding box: 94" x 46"
 *Fixture dimensions may change based on glass dimensions and how the fixture is balanced
 Materials: glass, metal
 Total Product weight: 26 lbs
